PART I.

EXPLANATION.—The name of the State and the department of the science are indicated here; the full address will be found under the name of the State in Part II. The prefix "Spec." implies that the subject which follows is at present more particularly in favor, but not exclusively; without that prefix, exclusively. "Cult." stands for "cultivated" or "cultivates." "Ex." means that exchanges are desired.

NOTICE.—The editor can only offer, in apology for the delay in the publication of the Directory, the shortness of the days. For this reason he is now compelled to issue the first two parts in advance, and will forward the third part as soon as his little leisure and imperfect information will allow.

He takes this occasion to thank his numerous correspondents for the kind attention to his, he fears, often importunate inquiries, and to venture still further to tax them by requesting them to point out defects that may be remedied when the third part—about libraries, herbaria, gardens and catalogues of value—is ready, which it ought to be about the beginning of May.

WM. H. LEGGETT, 54, E. 81st St., N. Y. City.

The Directory will be sent on receipt of the price, one copy for 40 cts.; three copies for \$1.00; twelve copies for \$3.00 post-paid.

Bulletin of the Torrey Botanical Club.

The ninth year of this publication began in January. It consists of four or more pages monthly, and is published toward the end of each month. Subscriptions and communications of botanical notes are invited. Price one dollar for the year in advance. Money Orders on **Station K**, New York. Address
